## SHOOT TO THRILL POLICY

Photographers, photojournalists and BSOP members Jeremy and Amanda Cuff have recently published a new brochure called "Shoot To Thrill Policy" which showcases a sample magazine feature article and an accompanying selection of images.

Jeremy said, "The aim of producing our "Shoot To Thrill" brochure is mainly for the purposes of expanding our portfolio of photojournalism work and is a good example of the type of commission that we can produce. It will be sent to editors and publishers, but we're also happy to send a copy to anyone who may be interested in our work."

Copies of "Shoot To Thrill Policy" can be requested from Jeremy and Amanda's website at [www.ja-universe.com](http://www.ja-universe.com)

The website features a wide selection of photography and articles with particular emphasis on scuba diving and travel, although other topics such as abstracts and black and white photography are also included.

New work is regularly added to the JA-Universe website in the form of new galleries and articles, and also news items and an image of the month.
